SUMMARY

Data Analyst & AI Automation Engineer with hands-on experience in Python, SQL, Power BI, Tableau and data visualization. Skilled in transforming raw data into actionable insights, building dashboards, and automating workflows with OpenAI, Make.com and n8n.

EDUCATION

B.Tech, Computer Science & Engineering (2022 - 2026)

Indo Global College, Abhipur | I.K. Gujral Punjab Technical University
Intermediate (12th), BSEB - 2021 | Matriculation (10th), CBSE - 2019

SKILLS

Programming: Python, SQL
Data Analysis: Pandas, NumPy, Power BI, Tableau, Excel
Databases: MySQL, Airtable
Automation: n8n, Make.com, APIs, Webhooks
Core CS: DSA, OOP, DBMS, Operating Systems
Tools: Git, GitHub, Claude Code, Jupyter Notebook

PROJECTS

Autonomous Data Enrichment & AI Qualification Pipeline

- Built an automated workflow with Make.com and Airtable for end-to-end lead processing.
- Developed an OpenAI-powered company enrichment system returning structured JSON.
- Integrated Vapi Voice AI for outreach; captured transcripts and ran sentiment analysis.

Power BI - Data Professional Survey Dashboard

- Built an interactive dashboard analyzing 1,000+ survey responses.
- Cleaned and modeled data with Power Query; created KPI metrics using DAX.
- Generated insights on salary trends, job roles and work-life balance.

EXPERIENCE

Data Analytics Virtual Experience Program - Deloitte (Forage), 2026

- Completed a simulation involving data analysis and forensic technology tasks.
- Examined datasets to identify anomalies and business patterns.
- Built visual reports and dashboards for stakeholder communication.

CERTIFICATIONS

- Data Analytics Job Simulation - Deloitte (Forage), 2026
- SOAR - AI to be Aware - Microsoft (Skill India / NCVET), 2026
- Claude 101 - Anthropic, 2026
